CERTIFIED DRONE TRAINING PROGRAM

TRAINING PROGRAM

OUR SERVICE

Our comprehensive drone training service provides hands-on instruction for both recreational and commercial drone operations. We help individuals and organizations master unmanned aircraft systems (**UAS**) through structured learning programs tailored to different skill levels and applications.

BEGINNER COURSE

- Basic flight controls and safety protocols
- Understanding airspace regulations
- Pre-flight inspections and maintenance
- Emergency procedures

CERTIFICATION PREPARATION

- Remote Pilot License preparation
- Advanced flight maneuvers
- Mission planning and risk assessment
- Industry-specific applications (photography, surveying, inspection)
